

Index

Note: Page numbers of article titles are in **bold face** type.

A

Abrasions, breast, 562

Acromioclavicular sprain, 598–600

Adolescents. *See also* Female athletes; High school– and college-aged athletes.
back pain in, **647–657**
neurodevelopment of, 519–524
early, 519–521
late, 523–524
middle, 521–523

Amenorrhea, in athletes, 564–565, 569–571

Anabolic steroids, 534

Anemia, iron deficiency, in female athletes, 573–574

Ankle, sports injuries of, 640–643
fractures, 642–643
osteochondral, 643
sprains, 640–642
sprains, 643

Anorexia nervosa, in female athletes, 566

Anterior cruciate ligament sprains, 635–636, 639–640

Anterior drawer sign, 641

Anticoagulants, for effort thrombosis, 617

Apophyseal injuries, 542–543, 632–633

Apophysitis, of fifth metatarsal, 642

Apprehension test, for shoulder dislocation, 604, 607–608

Athletes. *See* Sports medicine.

Athletic trainers, role of, 501

Auditory development
definition of, 508

- in elementary school children, 517
- in preschool children, 513

Avulsion fractures, 542–543

B

Back pain, **647–657**

- history of, 647
- in lumbar disc herniation, 653–655
- in pars interarticularis problems, 650–652
- in sacroiliac joint problems, 655
- in spondylolysis and spondylolisthesis, 544, 652–653
- mechanical, 656
- muscular, 656
- physical examination in, 648–649
- radiologic diagnosis of, 649–650

Balance, in female athletes, 560–561

Bankhart lesion, 604

Baseball, injuries in

- catastrophic, 592
- Little League elbow, 623–624
- Little League shoulder, 613
- Panner's disease, 624–625

Basketball, injuries in

- catastrophic, 591
- jumper's knee, 547

Bicyclist's nipple, 561

Bone. *See also* Fracture(s).

- deficient density of, in female athletes, 566–568
- in immature skeleton, 540–543

Boston Brace, for pars stress fractures, 651

Brachial plexus injury, 604–606, 616

Brain injuries, in sports, 587

Bras, sports, 563

Breast, of female athletes, 561–564

- asymmetry of, 563–564
- exercise effects on, 561
- galactorrhea in, 563–564
- injuries of, 561–563
- pain in, 563

Buckle fracture, of radius, 627

Bulimia nervosa, in female athletes, 566

Burners, in sports, 588–590, 604–606

Burning hands syndrome, 588–589

C

Calcaneofibular ligament, sprains of, 640

Calcium, in bone mass development, 567–568, 570

Cardiovascular system

 anomalies of, sudden death in, 593–594

 of female athletes, 559

Carpal bone fractures, 628

Catastrophic sports injuries, **585–595**

 categories of, 586

 cervical spine, 588–590

 death in, 593–594

 eye, 593

 head, 587, 590–591

 in cheerleading, 593

 in fall sports, 591

 in football, 590–591

 in spring sports, 592

 in winter sports, 592

 statistics on, 585–586

 stingers, 588–590

Cervical spine injuries, in sports, 588–590

Cheating, in sports, 534

Cheerleading, catastrophic injuries in, 593

Clavicle, sports injuries of

 fractures, 597–598

 osteolysis, 614–616

Cognitive development

 definition of, 507–508

 in adolescents, 520, 522–524

 in elementary school children, 516

 in preschool children, 511–512

Collateral ligament sprains, medial, sprains of, 636

Complex regional pain syndrome (reflex sympathetic dystrophy), 659–662

Computed tomography, in back pain, 650

Concussion, in sports, 587

Contusions

 breast, 561–562

 leg, 634

- Corset, lumbar, for pars stress fractures, 651
- Cramps, heat, 537, 540
- Cross-country running, catastrophic injuries in, 591
- Cruciate ligaments, of knee, sprains of, 635–636, 639–640

D

- Death, in sports, 593–594
- Dehydration, heat illness in, 536–540
- Desensitization techniques, for reflex sympathetic dystrophy, 661–662
- Disc herniation, lumbar, 653–655
- Dislocations, 540–543
 - elbow, 620–622
 - glenohumeral joint, 600–604, 607–609
 - hip, 631–632
 - patella, 638–639
- Drop-arm test, 612

E

- Eating disorders, in female athletes, 566
- Educational Amendment Act of 1972, Title IX, female sports participation and, 556
- Effort thrombosis, 616–618
- Elbow, sports injuries of
 - acute, 618–622
 - dislocations, 620–622
 - fractures, 618–620
 - Little League elbow, 623–624
 - osteochondritis dissecans, 625–627
 - overuse, 623–627
 - Panner's disease, 624–625
 - tennis elbow, 547
- Elementary school children, neurodevelopment of, sports participation and, 515–519
- Emotional development
 - in elementary school children, 516–517
 - in preschool children, 512
- Epicondylitis
 - lateral, 547
 - medial, 623–624
- Epidural hemorrhage, in sports, 587
- Epiphyseal injuries, 540–543
- Ergogenic aids, 534

- Estrogen(s)
 deficiency of, in athletes, 569–570
 in bone mass development, 566–567
 replacement of
 in amenorrhea, 570–571
 in eating disorders, 566
- Extensor tendonitis, 547
- Eye, sports injury of, 593

F

- FABER test, in back pain, 648–649
- Fat, body, of female athletes, 559
- Fat pad, displacement of, in elbow fractures, 619
- Female athletes, **555–583**
 amenorrhea in, 564–565, 569–571
 breast problems in, 561–564
 eating disorders in, 566
 historical view of, 555–556
 injuries in, 576
 iron deficiency anemia in, 573–574
 menstrual dilemmas in, 564–573
 athletic performance and, 571
 female triad in, 565–571
 physiology of, 564–565
 oral contraceptive effects on, 571–572
 osteoporosis in, 566–568
 physiology of, 559–561
 pregnancy in, 572–573
 psychologic issues in, 557–559
 sexual harassment and abuse of, 558–559
 stress urinary incontinence in, 574–576
 versus male athletes, physiologic differences in, 559–561
- Female athletic triad, 565–571
 amenorrhea, 564–565, 569–571
 eating disorders, 566
 osteoporosis, 566–568
- Femur, fractures of, 545–546, 634
- Fibromyalgia, 662–663
- Fibula, fractures of, 634, 642–643
- Figure eight strap, for clavicular fractures, 597–598
- Flexibility, of female athletes, 560
- Fluid replacement, in sports, 537–539

Foot, fractures of, 545, 642

Football, catastrophic injuries in, 590–591

Fracture(s)

avulsion, 542–543

carpal bone, 628

clavicle, 597–598

elbow, 618–620

femur, 634

fibula, 634, 642–643

hip, 631–632

humerus, 606–607

leg, 634

Maisonneuve, 634

malleolus, 642–643

metatarsal, 642–643

physeal, 540–542, 546

radius, 627

Salter-Harris classification of, 540–542

stress. *See* Stress fractures.

talus, 643

tibia, 545, 634

ulna, 546, 627–628

wrist, 627–628

G

Galactorrhea, 564

Glenohumeral joint, dislocations of, 600–604, 607–609

Growth

of nervous system. *See* Neurodevelopment.

physical

definition of, 506–507

in adolescents, 519–523

in elementary school children, 515–516

in preschool children, 511

training effects on, 524–525

Growth plates, injury of, 540–543

Gymnastics, injuries in

catastrophic, 591

distal radius physiolysis, 628–629

stress, 546

H

Hamstring muscles, injury of, 633–635

Headache, in brain injury, 587

- Healing, of fractures, 540
- Health prevention, physician role in, 501
- Hearing development
 definition of, 508
 in elementary school children, 517
 in preschool children, 513
- Heat illness, in sports, 536–540
 increased incidence of, 536–537
 prevention of, 538–539
 risk factors for, 537
 treatment of, 539–540
 types of, 537–538
- Hemorrhage, intracranial, in sports, 587
- Herniation, lumbar disc, 653–655
- High school– and college-aged athletes, **533–553**
 goals of, 534–535
 heat illness in, 536–540
 musculoskeletal injuries in
 acute, 540–543
 overuse, 543–549
 present-day compared with past, 535–536
- Hill-Sacks lesion, 604
- Hip, sports injuries of, 545–546, 631–633
- Hippocratic method, for shoulder reduction, 603
- Hockey, catastrophic injuries in, 591
- Humeral capitellum, osteochondrosis of, 624–625
- Humerus, sports injuries of
 head displacement, 600–604
 Little League shoulder, 613
 proximal fractures, 606–607
- Hyperpyrexia, in heat illness, 538
- Hypothalamic amenorrhea, in athletes, 569

I

- Ice hockey, catastrophic injuries in, 591
- Iliotibial band syndrome, 546–547
- Impingement syndrome, shoulder, 611–613
- Incontinence, urinary, in female athletes, 574–576
- Infants, neurodevelopment of, sports participation and, 510–511
- Information resources, for sports injury treatment, 500

Injuries, sports. *See* Sports injuries.

Intracerebral hemorrhage, in sports, 587

Intracranial hemorrhage, in sports, 587

Iron deficiency anemia, in female athletes, 573–574

Iselin's disease, 642

J

Jogger's nipple, 561

Joint(s), sports injuries of, 540–543

Jones' fracture, 545

Jumper's knee, 547

K

Kennedy-Hawkins impingement test, 612

Knee, sports injuries of, 635–640

 anterior cruciate ligament sprains, 635–636, 639–640

 iliotibial band syndrome, 546–547

 in female athletes, 576

 jumper's knee, 547

 medial collateral ligament sprains, 636

 meniscal tears, 637–638

 Osgood-Schlatter's disease, 543–544

 patellar subluxation/dislocation, 638–639

 patellar tendonitis, 547

 patellofemoral, 576

 posterior cruciate ligament sprains, 639–640

 stress fractures, 545

L

Lacerations, breast, 562

Lacrosse, catastrophic injuries in, 592

Language development

 in elementary school children, 516

 in preschool children, 512

Lateral compression syndrome, of wrist, 548

Lateral epicondylitis, 547

Leg. *See also specific bones and joints.*

 sports injuries of, 633–635

Ligament injuries, 540–543. *See also* Sprains.

- Little League elbow, 623–624
- Little League shoulder, 613
- Lower extremity, sports injuries of, **631–645**
- ankle, 640–643
 - foot, 640–643
 - hip, 545–546, 631–633
 - knee. *See* Knee.
 - leg and thigh, 633–635
 - overuse, 544–546
 - pelvic, 631–633
- Lumbar corset, for pars stress fractures, 651
- Lunate fractures, 628

M

- McMurray's sign, in meniscal tears, 637
- Maisonneuve fracture, 634
- Malleolus, fracture of, 642–643
- Maturation
- definition of, 506–507
 - of nervous system. *See* Neurodevelopment.
- Medial collateral ligament sprains, 636
- Medial epicondylitis, 623–624
- Medial tension/lateral compression syndrome, 548
- Medial tibial stress syndrome (shin splints), 546
- Medroxyprogesterone acetate, osteoporosis due to, 568
- Menarche, delayed, in athletes, 569
- Meniscal tears, 637–638
- Menstrual dilemmas, in athletes, 564–572
- athletic performance and, 571
 - female triad, 565–571
 - physiology of, 564–565
- Metatarsal, fifth, sports injuries of, 545, 642
- Mondor's disease, 563
- Musculoskeletal injuries. *See also specific injuries.*
- acute, 540–543
 - back pain in, 656
 - chronic pain in, **659–666**
 - in children versus adults, 540
 - in overtraining syndrome, 664–665

overuse. *See* Overuse injuries.
reflex sympathetic dystrophy in, 659–662

Myositis ossificans, in thigh contusion, 634

N

Neer impingement test, 612

Neurapraxia, in sports injuries, 590

Neurodevelopment, sports participation and, **505–531**

auditory, 508, 513, 517
cognitive. *See* Cognitive development.
definition of, 506–509
factors affecting, 506
functional domains of, 507
in adolescents, 519–524
in infants, 510–511
in middle childhood, 515–519
in preschool child, 511–515
in toddlers, 510–511
injury risk and, 525–526
perceptual motor, 508–509, 513–514, 517–518
physical. *See* Growth.
principles of, 505–506
progress in, quantitative versus qualitative, 506
readiness, 509–510
training effects on, 524–525
visual-motor, 508, 512–513, 517

Nipple

discharge from, 564
injuries of, 561–562

O

Obesity, sports participation and, 498

Oligomenorrhea, in athletes, 564, 569

Olympic Games, female athlete participation in, 555–556

Oral contraceptives

athletic performance effects of, 571–572
for amenorrhea, 570–571

Orthosis, warm-n-form

for pars stress fractures, 651
for spondylolisthesis, 653
for spondylolysis, 652

Osgood-Schlatter's disease, 543–544

Osteitis pubis, 547

- Osteochondritis dissecans
 - of elbow, 625–627
 - of knee, versus meniscal tear, 638
 - of talus, 643
- Osteochondrosis, of humeral capitellum, 624–625
- Osteolysis, of clavicle, 614–616
- Osteoporosis, in female athletes, 566–568
- Overtraining syndrome, 664–665
- Overuse injuries, 543–549
 - causes of, 543
 - clavicular osteolysis, 613–616
 - effort thrombosis of arm, 616–618
 - elbow, 623–627
 - femoral fractures, 544–545
 - glenohumeral subluxation, 607–609
 - history of, 543
 - iliotibial band syndrome, 545–546
 - impingement syndrome, 611–613
 - Jones' fracture, 544
 - Little League elbow, 623–624
 - Little League shoulder, 613
 - Osgood-Schlatter's disease, 543–544
 - osteitis pubis, 546
 - osteochondritis dissecans, 625–627, 638, 643
 - Panner's disease, 624–625
 - patellar tendonitis, 546
 - prevention of, 549
 - radial physis, 545
 - rotator cuff, 546, 609–611
 - shin splints, 545
 - shoulder, 607–618
 - spondylolysis and spondylolisthesis, 544, 652–653
 - stress fractures in. *See* Stress fractures.
 - tennis elbow, 546
 - thoracic outlet syndrome, 616
 - tibial stress fractures, 544
 - treatment of, 546–547
 - ulnar physis, 545
 - wrist, 546

P

Paget-Schrotter syndrome, 616–618

Pain

- back. *See* Back pain.
- breast, 563
- musculoskeletal, **659–666**

- Panner's disease, 624–625
- Paraplegia, in sports injuries, 586, 588–590
- Parents, sports participation expectations of, 502–503
- Pars interarticularis problems, back pain in, 650–652
- Patella, sports injuries of
 in female athletes, 576
 subluxation/dislocation, 638–639
 tenonitis, 547
- Peak bone mass, development of, 566
- Pelvis, sports injuries of, 547, 631–633
- Pendulum exercises, for acromioclavicular sprain, 600
- Perceptual motor development
 definition of, 508–509
 in elementary school children, 517–518
 in preschool children, 513–514
- Performance-enhancing substances, advice on, 501
- Peroneal muscles, strains of, 643
- Physcal injuries, 540–543, 546
- Physical therapy, for reflex sympathetic dystrophy, 661–662
- Posterior cruciate ligament sprains, 639–640
- Pregnancy, exercise in, 572–573
- Preparticipation examination, 500
- Preschool children, neurodevelopment of, sports participation and, 511–515
- Psychological issues
 in female sports participation, 557–559
 in overtraining syndrome, 664–665
 in reflex sympathetic dystrophy, 662
- Psychosocial development, in adolescents, 520–522, 524
- Puberty, in female athletes, 559–561

Q

- Quadriceps muscles, injury of, 633–635
- Quadriplegia, in sports injuries, 586, 588–590

R

- Radius, sports injuries of
 distal fractures, 627–628
 physiolysis, 628–629
 stress, 546

- Reduction, of dislocation
 - elbow, 621
 - glenohumeral, 602–604
- Referral, for sports injury treatment, 500
- Reflex sympathetic dystrophy, 659–662
- Resistance training, in bone mass development, 567
- Rockwood classification, of acromioclavicular sprains, 598–599
- Rotator cuff
 - muscles of, exercises for, 609
 - tendonitis of, 547, 609–611
- Running
 - breast injuries in, 561–562
 - iliotibial band syndrome in, 546–547

S

- Sacroiliac joint pain, 655
- Salter-Harris classification, of growth plate injuries, 540–542
- Scaphoid fractures, 628
- Second impact syndrome, 587
- Sexual harassment and abuse, of female athletes, 558–559
- Shin splints, 546
- Shoulder, sports injuries of, 597–618
 - acromioclavicular sprain, 598–600
 - brachial plexus, 604–606
 - clavicular fractures, 597–598
 - clavicular osteolysis, 614–616
 - effort thrombosis, 616–618
 - glenohumeral dislocation, 600–604, 607–609
 - humeral fractures, 606–607
 - humeral physiolysis, 613
 - impingement syndrome, 611–613
 - Little League, 613
 - overuse, 607–618
 - rotator cuff tendonitis, 609–611
 - thoracic outlet syndrome, 616
- Single-leg hyperextension test, in back pain, 648
- Single-photon emission computed tomography, in back pain, 649–650
- Skiing, catastrophic injuries in, 591
- Sling, for clavicular fractures, 597–598
- Soccer, catastrophic injuries in, 591

Social development

- in adolescents, 520–522, 524
- in elementary school children, 516–517
- in preschool children, 512

Softball, catastrophic injuries in, 592

SPECT (single-photon emission computed tomography), in back pain, 649–650

Speed peak, of athletes, 560

Spinal cord injury, in sports, 588–590

Spine

- back pain related to. *See* Back pain.
- spondylolysis and spondylolisthesis of, 544, 652–653

Spondylolysis and spondylolisthesis

- back pain in, 652–653
- in overuse, 544

Sports injuries. *See also specific injuries.*

- catastrophic, **585–595**
- heat illness, 536–540
- information resources for, 500
- lower extremity, **631–645**
- musculoskeletal
 - acute, 540–543
 - overuse, 543–549
- neurodevelopment and, 525–526
- referral for, 500
- upper extremity, **597–630**

Sports medicine

- back pain, 544, **647–657**
- catastrophic injuries, **585–595**
- chronic musculoskeletal pain, **659–666**
- for female athletes, **555–583**
- for high school– and college-aged athletes, **533–553**
- lower extremity injuries, **631–645**
- neurodevelopmental considerations in, **505–531**
- participation expectations for, **497–505**
- upper extremity injuries, **597–630**

Sports participation

- advantages of, 533, 536, 557–558
- expectations of, **497–504**
 - by parents, 502–503
 - by patient, 501–502
 - by physician, 499–501
 - changing nature of, 498–499
 - historical view of, 497–498
- importance of, 502

- of female athletes, 555–556
 - statistics on, 498–499, 505, 535–536, 555–556
- Sports readiness, definition of, 509–510
- Sprains
- acromioclavicular, 598–600
 - ankle, 640–642
 - anterior cruciate ligament, 635–636, 639–640
 - medial collateral ligament, 636
- Stingers, in sports, 588–590, 604–606
- Strains
- ankle, 643
 - leg, 633–634
- Strength, of female athletes, 560
- Strength training, 534–535, 560
- Stress fractures, 543–546
- in Little League shoulder, 613
 - pars, 651–652
 - tibia, 545
- Stress urinary incontinence, in female athletes, 574–576
- Subarachnoid hemorrhage, in sports, 587
- Subdural hemorrhage, in sports, 587
- Subluxations, patella, 638–639
- Sudden death, in sports, 593–594
- Supraspinatus tendon, impingement of, 611–613
- Sweating, heat illness and, 536–540
- Swimming, catastrophic injuries in, 591

T

- Talofibular ligament, anterior, sprains of, 640
- Talus, osteochondritis dissecans of, 643
- Tendonitis
- extensor, 547
 - patellar, 547
 - rotator cuff, 547, 609–611
- Tennis, injuries in
- catastrophic, 592
 - tennis elbow, 547
- Tensor fascia latae syndrome, 546–547
- Thigh, sports injuries of, 633–635

- Thirst, as dehydration indicator, 537–538
- Thoracic outlet syndrome, 616
- Thrombosis, effort, 616–618
- Throwing, injuries in
 - Little League elbow, 623–624
 - Little League shoulder, 613
 - Panner's disease, 624–625
 - progressive program for, 611
- Tibia, fractures of, 545, 634
- Toddlers, neurodevelopment of, sports participation and, 510–511
- Torus fracture, of radius, 627
- Track, catastrophic injuries in, 591–592
- Training
 - growth effects of, 524–525
 - neurodevelopmental effects of, 524–525
 - strength, 534–535

U

- Ulna, fractures of, 546, 627–628
- Upper extremity, sports injuries of, **597–630**. *See also specific injuries.*
 - elbow
 - acute, 618–622
 - overuse, 623–627
 - overuse, 546–548
 - shoulder
 - acute, 597–607
 - overuse, 607–618
 - wrist, 627–629
- Urinary incontinence, stress, in female athletes, 574–576
