

Index

Note: Page numbers of article titles are in **bold face** type.

A

- Abscess, peritonsillar, tonsillectomy for, 451–452
- Acupuncture, for otitis media, 402
- Acyclovir, for herpetic gingivostomatitis, 469
- Adenoid(s)
hypertrophy of, obstructive sleep apnea in, 429–430
vegetations of, sinusitis in, 414
- Adenoidectomy
for otitis media, 400–401
for sinusitis, 420–421
- Adenotonsillectomy, for obstructive sleep apnea, 432–434
- Air pollution, sinusitis in, 414
- Airway obstruction, after adenotonsillectomy, 432–433
- Allergy, sinusitis in, 413–414, 416
- Alternative medicine, for otitis media, 401–402
- American Sign Language, for auditory neuropathy/dyssynchrony, 336
- Amlexanox paste, for aphthous stomatitis, 470
- Amoxicillin
for group A streptococcal pharyngotonsillitis, 447
for otitis media, 399–400
for sinusitis, 417
- Amoxicillin-clavulanate
for otitis media, 400
for sinusitis, 418–419
- Ankyloglossia, **379–395**
as anatomic variation, 380
diagnosis of, 383–387
feeding with, 381, 388
historical context of, 379–380
in congenital syndromes, 380
incidence of, 380
interventions for
indications for, 387–389
nonsurgical, 389
surgical, 389–393
mechanical effects of, 383
natural history of, 380
potential manifestations of, 380–383
social effects of, 383
speech with, 382–383
- Antihistamines, for sinusitis, 418–420
- Aphthous stomatitis, recurrent, 470
- Apnea
in extraesophageal reflux, 488–489
sleep, obstructive. *See* Obstructive sleep apnea.
- Arhinia, 461
- Articulation, of speech, ankyloglossia effects on, 382–383
- Arytenoid dislocation, dysphonia in, 375–376
- Asthma, in extraesophageal reflux, 487
- Audiometry
after cochlear implantation, 352–353
for newborns. *See* Hearing screening, neonatal.
in auditory neuropathy/dyssynchrony, 332–334
- Auditory brain stem response
abnormal, in auditory neuropathy/dyssynchrony, 331, 335–336
for neonatal hearing screening, 304, 306–310
- Auditory neuropathy/dyssynchrony, **329–338**
definition of, 331
diagnosis of, 332–335
pathophysiology of, 331–332
treatment of, 335–338
- Autonomic dysfunction, Riga-Fede disease in, 471

- Autosomal dominant nonsyndromic deafness, 320–321
- Azithromycin
for group A streptococcal pharyngotonsillitis, 448
for nontuberculous mycobacterial infections, 508
for otitis media, 400
-
- B**
- Barium esophagography, in extraesophageal reflux, 490–491
- Behavioral disorders, in obstructive sleep apnea, 428–429
- Benzathine penicillin G, for group A streptococcal pharyngotonsillitis, 447
- Benzocaine, for aphthous stomatitis, 470
- Biopsy
in extraesophageal reflux, 491
lymph node, in nontuberculous mycobacterial infections, 506–507
- Bohn nodules (Epstein pearls), 467
- Breast-feeding, ankyloglossia effects on, 381, 388
- Budesonide, for sinusitis, 418
-
- C**
- Candidiasis, oral, 467–468
- Candling, for otitis media, 401
- Ceftriaxone, for sinusitis, 418
- Cephalosporins
for group A streptococcal pharyngotonsillitis, 447–448
for sinusitis, 418–420
- Cerebral palsy, obstructive sleep apnea in, 430
- Cervical lymphadenitis, in nontuberculous mycobacterial infections
diagnosis of, 502–507
treatment of, 508–509
- Charcot-Marie-Tooth disease, auditory neuropathy/dyssynchrony in, 333
- Chiropractic manipulation, for otitis media, 402
- Chlorhexidene, for aphthous stomatitis, 470
- Choanal atresia, 460–461
- Ciliary dyskinesia, primary, sinusitis in, 414–415, 417
- Cisapride, for extraesophageal reflux, 495
- Clarithromycin
for group A streptococcal pharyngotonsillitis, 448
for nontuberculous mycobacterial infections, 508
for otitis media, 400
- Cleft lip, nasal deformity in, 461
- Clindamycin, for sinusitis, 420
- Cochlea, malformations of, in hereditary deafness, 318–320
- Cochlear implantation, **339–359**
audiologic criteria for, 347
candidacy for, 345–351
comprehensive assessment for, 345–346
contraindications to, 346–347
educational implications of, 354–355
for auditory neuropathy/
dyssynchrony, 337
for hereditary deafness, 317
hearing results of, 352–353
in very young children, 347–348
language results of, 353–354
medical assessment for, 348–350
preoperative considerations in, 350–351
principles of, 339–341
quality of life with, 355–356
results of, 351–356
technologic advances in, 341–345
- Cochlear microphonic response, in auditory neuropathy/dyssynchrony, 332–333
- Compound action potential, in auditory neuropathy/dyssynchrony, 332
- Computed tomography
in cochlear implantation, 348–349
in sinusitis, 412
- Congenital disorders
ankyloglossia, 379–395
dysphonia, 369–371
hearing loss, 305. *See also*
Deafness, hereditary.
nasal deformities, 459–462
- Connexin defects, in hereditary deafness, 314–318
- Continuous positive airway pressure, for obstructive sleep apnea, 435
- Cor pulmonale, in obstructive sleep apnea, 427–428
- Corticosteroids
for aphthous stomatitis, 470
for geographic tongue, 469
for oral hemangioma, 477–478

- Cough, in extraesophageal reflux, 487
- Counseling, genetic, in hereditary deafness, 322–323
- Craniofacial surgery, for obstructive sleep apnea, 434–435
- Craniofacial syndromes, nasal deformities in, 462
- Crib-O-Gram, for hearing screening, 303
- Croup, dysphonia in, 367
- Culture, throat, for pharyngotonsillitis, 447
- Cyst(s)
 dermoid, 459, 480
 eruption, 480
 gingival (Epstein pearls), 467
 saccular, dysphonia in, 369–370
 teratoid, 481
 vocal fold, dysphonia in, 368
- Cystic fibrosis, sinusitis in, 415, 417

D

- Deafness, hereditary, **313–327**
 dominant, 320–321
 epidemiology of, 313–314
 genetic testing for, 322–323
 recessive, 314–320
- Demyelinating neuropathy, in auditory neuropathy/dyssynchrony, 332
- Dermoid cysts
 nasal, 459
 oral, 480
- DFNA6/14* gene, mutations of, hereditary deafness in, 320
- DIDMOAD syndrome, hereditary deafness in, 321
- Down syndrome, obstructive sleep apnea in, 430
- Dysphagia, dysphonia and, 363
- Dysphonia, **361–378**
 anatomic causes of, 368–369
 congenital, 369–371
 differential diagnosis of, 366–367
 evaluation of, 362
 history taking in, 362–364
 iatrogenic, 374–376
 in extraesophageal reflux, 487–488
 in infection, 366–367
 in inflammation, 371–372
 in neoplasia, 372
 in neurologic disorders, 374–375
 in respiratory papillomatosis, 373–374

- incidence of, 361
 intermittent, 363
 microlaryngoscopy in, 366
 pH probe in, 365–366
 physical examination in, 364–365
 progressive, 363

E

- Ear
 inner, infections of. *See* Otitis media.
 middle, absent muscle reflexes in,
 in auditory neuropathy/
 dyssynchrony, 331
- Edema, dysphonia in, 366–367
- Educational achievement, cochlear
 implantation effects on, 354–355
- Efferent medial olivocochlear function, in
 auditory neuropathy/dyssynchrony, 333
- Electrocochleography, for neonatal hearing
 screening, 308
- Electromyography, laryngeal, in
 dysphonia, 365
- Encephalocele, nasal deformity in, 459–460
- Endocochlear potential, in auditory
 neuropathy/dyssynchrony, 331–332
- Endoscopic sinus surgery, for sinusitis, 421
- Ephelis, oral, 473
- Epiglottitis, dysphonia in, 367
- Epignathi, 481
- Epstein-Barr virus infections, tonsillitis in,
 452–454
- Epstein pearls, 467
- Eplulis, congenital, 479
- Eruption cysts, 480
- Erythromycin, for otitis media, 399–400
- Esophagitis, in gastroesophageal reflux
 disease, 490
- Esophagogastroduodenoscopy, in extraesopha-
 geal reflux, 491
- Esophagography, barium, in extraesophageal
 reflux, 490–491
- Esophagus, reflux into. *See* Gastroesophageal
 reflux disease.
- Ethambutol, for nontuberculous mycobacterial
 infections, 508
- Evoked otoacoustic emission screening, for
 neonates, 304, 306–307, 309–310

Extracranial reflux
 clinical manifestations of, 486–489
 diagnosis of, 489–494
 natural history of, 486
 treatment of, 495–496
 versus gastroesophageal reflux disease, 490

F

Failure to thrive, in obstructive sleep apnea, 427

Familial dysautonomia, oral lesions in, 471

Feeding, ankyloglossia effects on, 381, 388

Fluticasone, for sinusitis, 420

Fractures, nasal, 463–464

Freckles, oral, 473

Frenotomy, for ankyloglossia, 389–390, 392–393

Frenuloplasty, for ankyloglossia, 390–393

Frenulum, short. *See* Ankyloglossia.

G

Gastroesophageal reflux disease, **485–500**
 classification of, 485–486
 clinical manifestations of, 486–489
 diagnosis of, 489–494
 dysphonia in, 363, 365–366, 369
 natural history of, 486
 sinusitis in, 414, 416–417
 terminology of, 486
 treatment of, 495–496

Genetic testing, for deafness.
See Deafness, hereditary.

Geographic tongue, 468–469

Giant cell granuloma, peripheral, 482

Gingiva
 cysts of (Epstein pearls), 467
 eruption cysts in, 480
 granular cell tumor of (epulis), 479

Gingivostomatitis, herpetic, 469

GJB2 gene, mutations of, hereditary deafness in, 314–318

Gliomas, nasal deformity in, 459–460

Glomerulonephritis, from group A streptococcal pharyngotonsillitis, 446

Glossitis, median rhomboid, 471–473

Glottic webs, dysphonia in, 370–371

Goiter, in Pendred syndrome, 318–320

Granular cell tumor, gingival (epulis), 479

Granuloma(s)
 oral, in Riga-Fede disease, 471
 peripheral giant cell, 482

Growth retardation, in obstructive sleep apnea, 427

H

Hair cells, absence of, in auditory neuropathy/dyssynchrony, 332

Hearing aids, for auditory neuropathy/dyssynchrony, 336

Hearing loss, hereditary.
See Deafness, hereditary.

Hearing screening, neonatal, **301–312**
 costs of, 307
 for high-risk patients, 302
 goals of, 302
 historical background of, 301–305
 otolaryngologist role in, 310–311
 parent perspectives on, 310
 potential downsides of, 306–307
 reasons for, 305–306
 targeted, 307
 types of tests for, 308–310

Hemangioma
 nasal deformity in, 460
 oral, 476–478

Hereditary deafness. *See* Deafness, hereditary.

Herpangina, 469–470

Herpetic gingivostomatitis, primary, 469

Hoarseness. *See* Dysphonia.

Hyperactivity, in obstructive sleep apnea, 428

Hyperbilirubinemia, auditory neuropathy/dyssynchrony in, 332

Hypertension, pulmonary, in obstructive sleep apnea, 427–428

Hypoventilation, obstructive sleep apnea and, 426

I

Immunodeficiency
 nontuberculous mycobacterial infections in, 507–508
 sinusitis in, 414, 417

Implantation, cochlear.
See Cochlear implantation.

Inattention, in obstructive sleep apnea, 428
 Infections, respiratory, dysphonia in, 366–367
 Infectious mononucleosis, tonsillitis in,
 452–454
 Interferon α 2a, for oral hemangioma, 478

J

Jaw-positioning appliance, for obstructive
 sleep apnea, 436

L

Labyrinthitis ossificans, cochlear implantation
 and, 349–350

Language

development of, cochlear implantation
 effects on, 353–354
 learning of, for auditory neuropathy/
 dyssynchrony, 336–337

Laryngitis, chronic. *See*
 Extraesophageal reflux.

Laryngomalacia, in extraesophageal
 reflux, 488

Laryngoscopy

in dysphonia, 364–366
 in extraesophageal reflux, 490

Laryngotracheobronchitis, dysphonia in, 367

Larynx

glottic webs in, dysphonia in, 370–371
 neoplasia of, dysphonia in, 372
 papillomatosis of, dysphonia in,
 373–374

Learning problems, in obstructive sleep apnea,
 428–429

Lingual thyroid, 473–474

Lip, hemangioma of, 476

Lymphadenitis, cervical, in nontuberculous
 mycobacterial infections
 diagnosis of, 502–507
 treatment of, 508–509

Lymphangioma, oral, 478–479

M

Macroglossia, reduction of, for obstructive
 sleep apnea, 434

Magnetic resonance imaging, 350

Mandible, distraction osteogenesis for, in
 obstructive sleep apnea, 435

Masking level difference, in auditory neurop-
 athy/dyssynchrony, 333, 335

Mastoidectomy, for nontuberculous mycobac-
 terial infections, 509

Mastoiditis, in nontuberculous mycobacterial
 infections

diagnosis of, 507
 treatment of, 509

Median rhomboid glossitis, 471–473

Meningitis, with cochlear implantation, 351

Meningocele, nasal deformity in, 459–460

Microalaryngoscopy, in dysphonia, 366

Mometasone, for sinusitis, 420

Mondini dysplasia, in hereditary deafness,
 318–320

Moniliais, 467–468

Mouth, lesions of. *See* Oral lesions.

Mucoceles, oral, 474–476

Mucolytics, for sinusitis, 420

Mycobacterial infections, nontuberculous,
501–512

clinical manifestations of, 502–508
 etiology of, 501–502
 in immunodeficiency, 507–508
 treatment of, 508–510

Myringotomy, for otitis media, 400–401

N

Nasal deformities, **457–465**

acquired, 462–464
 congenital, 459–462
 developmental considerations in, 458
 embryology of, 457
 functional considerations in, 458–459

Nasal intubation, deformities from, 462

Neonates, hearing screening in. *See* Hearing
 screening, neonatal.

Neoplasia, of larynx, dysphonia in, 372

Nissen fundoplication, for extraesophageal
 reflux, 495–496

Nodules, vocal fold, dysphonia in, 368–369

Nose

agenesis of, 462
 deformities of. *See* Nasal deformities.

- duplication of, 462
 fractures of, 463–464
 septal deviation in, 462–463
- Nystatin, for moniliasis, 468
- O**
-
- Obstructive sleep apnea, **425–441**
 complications of, 427–429
 definitions of, 425–426
 diagnosis of, 430–432
 pathophysiology of, 429–430
 symptoms of, 427
 treatment of
 nonsurgical, 435–436
 surgical, 432–435
- Oral lesions, **467–484**
 biopsy in, 482
 compressible, 473–479
 pigmented, 473
 soft tissue growths, 479–482
 ulcerations, 469–473
 vesicular, 469
 white, 467–469
- Otitis media
 acute, **397–409**
 incidence of, 397
 organisms causing, 397
 pathophysiology of, 397
 prevention of, pneumococcal conjugate vaccines for, 402–406
 sequelae of, 398–399
 spectrum of, 398
 treatment of
 alternative medicine in, 401–402
 costs of, 398
 medical, 399–400
 surgical, 400–401
 in nontuberculous
 mycobacterial infections
 diagnosis of, 507
 treatment of, 509
 with cochlear implantation, 350–351
- Otoacoustic emissions, in auditory neuropathy/dyssynchrony, 331–333
- Otology/otology
 ankyloglossia, **379–395**
 auditory neuropathy/dyssynchrony, **329–338**
 cochlear implants, 317, **339–359**
 gastroesophageal reflux. *See* Gastroesophageal reflux disease.
 genetic screening for deafness, **313–327**
 nasal deformities, **457–465**
 neonatal hearing screening, **301–312**
 nontuberculous mycobacterial infections, **501–512**
 obstructive sleep apnea, **425–441**
 oral lesions, **467–484**
 otitis media, **397–409**, 507, 509
 phonation disorders, **361–378**
 sinusitis, **411–424**, 507, 510
 tonsillectomy. *See* Adenotonsillectomy; Tonsillectomy.
- Oxygen therapy, nocturnal, for obstructive sleep apnea, 436
- P**
-
- Papillary atrophy, of tongue, 471–473
- Papillomatosis, respiratory, dysphonia in, 373–374
- Paralysis, vocal fold, dysphonia in, 374–375
- Pediatric autoimmune neuropsychiatric disorder, group A streptococcal pharyngotonsillitis and, 446
- Pendred syndrome, hereditary deafness in, 318–320
- Penicillin V, for group A streptococcal pharyngotonsillitis, 447
- Peripheral giant cell granuloma, 482
- Peritonsillar abscess, tonsillectomy for, 451–452
- pH monitoring
 in extraesophageal reflux, 491–494
 in gastroesophageal reflux, in dysphonia, 365–366
- Pharyngeal flap revision, for obstructive sleep apnea, 434
- Pharyngeal sensor, in extraesophageal reflux, 491–492
- Pharyngotonsillitis, 445–451
 group A streptococcal, 445–451
 carrier state in, 445–446
 complications of, 446
 diagnosis of, 447
 medical treatment of, 447–448
 tonsillectomy for, 448–451
- Phonation disorders. *See* Dysphonia.
- Pigmented lesions, oral, 473
- Pneumococcal vaccine, for otitis media prevention, 402–406
- Polyrrhinia, 462
- Polysomnography, in obstructive sleep apnea, 430–431

Prednisone, for obstructive sleep apnea, 436
 Prelingual deafness. *See* Deafness, hereditary.
 Primary ciliary dyskinesia, sinusitis in, 414–415, 417
 Proboscis lateralis, 462
 Pseudomembranous candidiasis, 467–468
 Pulmonary hypertension, in obstructive sleep apnea, 427–428
 Pyriform aperture stenosis, 460

Q

Quality of life, with cochlear implant, 355–356

R

Radionuclide scan, in extraesophageal reflux, 491
 Ranulas, 474–476
 Reflux, gastroesophageal. *See* Gastroesophageal reflux disease.
 Respiratory infections, sinusitis in, 413
 Respiratory papillomatosis, dysphonia in, 373–374
 Rheumatic fever, from group A streptococcal pharyngotonsillitis, 446
 Rhinosinusitis. *See* Sinusitis.
 Riga-Fede disease, 471
 Riley-Day syndrome, oral lesions in, 471

S

Saccular cysts, dysphonia in, 369–370
 Saline spray, for sinusitis, 418–419
 Salivary glands, mucoceles of, 474–476
 Sclerotherapy, for oral lymphangioma, 478
 Sensorineural hearing loss, hereditary, in *GJB2* mutations, 314–318
 Septal deviation, 462–463
 Sinusitis, **411–424**
 causes of, 413–417
 definitions of, 411–412
 diagnosis of, 412
 nontuberculous mycobacterial, 507, 510
 prevention of, vaccines for, 421
 treatment of, 415–421

 medical, 417–420
 overview of, 415–417
 surgical, 420–421
SLC26A4 gene, mutations of, hereditary deafness in, 318–320
 Sleep apnea, obstructive. *See* Obstructive sleep apnea.
 Snoring, in obstructive sleep apnea, 425–427
 Social effects, of ankyloglossia, 383
 Speech
 ankyloglossia effects on, 382–383
 phonation disorders and. *See* Dysphonia.
 Speech therapy
 for ankyloglossia, 389
 for vocal fold nodules, 369
 Stomatitis, aphthous, 470
 Strep throat. *See* Pharyngotonsillitis, group A streptococcal.
Streptococcus pneumoniae vaccine, for otitis media prevention, 402–406
 Stridor, dysphonia and, 363
 Stroboscopy, in dysphonia, 364–365
 Subglottic stenosis
 dysphonia in, 375
 in extraesophageal reflux, 488
 Sublingual gland, mucoceles of, 475
 Sudden infant death syndrome, in extraesophageal reflux, 488–489
 Summating potential, in auditory neuropathy/dyssynchrony, 332
 Sympathomimetics, for sinusitis, 418

T

Temporal bone, dysplasia of, in hereditary deafness, 318–320
 Teratoid cysts, oral, 481
 Teratoma, oral, 480–481
 Throat culture, for pharyngotonsillitis, 447
 Thrush, 467–468
 Thyroid tissue, lingual, 473–474
 Tilted nose, 461
 Tongue
 geographic, 468–469
 hemangioma of, 476
 papillary atrophy of, 471–473

- reduction of, for obstructive sleep apnea, 434
- thyroid tissue in, 473–474
- Tongue-tie. *See* Ankyloglossia.
- Tonsil(s), hypertrophy of, obstructive sleep apnea in, 429–430
- Tonsillectomy, **443–456**
 - anatomic considerations in, 444–445
 - for chronic tonsillitis, 452
 - for Epstein-Barr virus infection, 452–454
 - for obstructive sleep apnea, 432–434
 - for otitis media, 401
 - for peritonsillar abscess, 451–452
 - for pharyngotonsillitis, 445–451
 - history of, 443–444
- Tonsillitis. *See* Pharyngotonsillitis.
- Tracheotomy
 - for obstructive sleep apnea, 435
 - for vocal fold paralysis, 375
- Transglottic stenosis, dysphonia in, 375
- Tuberculosis, versus nontuberculous mycobacterial infections, 503–504, 506
- Tympanocentesis, for otitis media, 400–401
- Tympanostomy tube, for otitis media, 400–401

U

-
- Ulcer(s), oral, 469–473
 - Upper airway resistance syndrome, sleep apnea in, 425–426
 - Uvulopalatopharyngoplasty, for obstructive sleep apnea, 434

V

-
- Vaccines, for sinusitis prevention, 421
 - Ventilation tubes, with cochlear implantation, 351
 - Vestibular function, in hereditary deafness, 317
 - Vocal folds
 - cysts of, dysphonia in, 368
 - evaluation of, in dysphonia, 365
 - nodules of, dysphonia in, 368–369
 - paralysis of, dysphonia in, 374–375
 - Voice, disorders of. *See* Dysphonia.

W

-
- Webs, glottic, dysphonia in, 370–371
 - WFS1* gene, mutations of, hereditary deafness in, 321
 - Wolfram syndrome, hereditary deafness in, 321
