

Dedication

These issues of the *Pediatric Clinics of North America* are dedicated to Dr. Robert J. Haggerty (Professor Emeritus and former Chair of Pediatrics at the University of Rochester and former President of the William T. Grant Foundation) and Dr. Stanford B. Friedman (Professor of Pediatrics at the Albert Einstein College of Medicine and Guest Editor of the 1975 *Pediatric Clinics of North America* issue entitled “Behavioral Pediatrics”). You have been the Hippocrates and Galen of behavioral pediatrics in the twentieth century. Your contributions in the exciting field of pediatrics are witnessed by current pediatricians and will influence countless pediatricians in the future. Thank you for sharing your wisdom with your grateful colleagues and their patients.
