**Bill's Star** hand pieced and quilted by  
Kay McClain from a design and fabric by  
Jinny Beyer.

Bill Briggs and Kay McClain met at the 1985 ENA annual meeting in New York City. He had recently returned from Saudi Arabia and moved to Massachusetts. Over the years their friendship has grown as they have been become more involved in ENA activities including the various Friends of Bill and Kay networking antics.

Kay started quilting in 1976 and it has provided a balance to her career in emergency nursing. She had been making quilts for each ENA president for more than 15 years when she made a small aloha shirt quilt for Renee Holleran from ENA specialty fabric. Generally the quilts have been related to the locations of the Annual Conferences, current events, or something personal in the presidents' lives. She believes that the ENA presidents do so many things that are intangible that it is nice to have something concrete to remind them of all their service to the membership and the profession.

Bill saw the Stained Glass Star on the Jinny Beyer Web site (<http://www.jinnybeyer.com>) and instantly fell in love with it. A lover of stained glass, Bill feels that it resembles the ENA membership, each piece a distinct and brilliant color, but together making something magnificent. A traditional square or rectangle wouldn't do for Bill, who wanted the star to stand alone.
