## Hemoglobin-Based Oxygen Carriers: First, Second or Third Generation? Human or Bovine? Where are We Now?

Lena M. Napolitano, MD, FACS, FCCP, FCCM

The above article which appeared in the April 2009 issue “Hemoglobin-based Oxygen Carriers: The Future in Resuscitation?” contained an unfortunate error regarding the figure legend for Fig. 6. The correct legend should read:

Fig. 6. A technician at Northfield Laboratories holds two IV bags filled with polyheme, next to outdated Red Cross blood. (*Courtesy of AP Images/M. Spencer Green; with permission.*)
