

Erratum

Erratum to “New Therapeutics in
Rheumatoid Arthritis”
[Rheum Dis Clin N Am 32 (1) (2006) 57-74]

Christine Savage, MD, E. William St. Clair, MD*

Duke University Medical Center, Durham, NC, USA

In the February 2006 issue of *Rheumatic Disease Clinics of North America*, an incorrect drug dosage was printed. On page 66 in the article “New Therapeutics in Rheumatoid Arthritis,” the correct dosage for rituximab should be 1000 mg intravenously once on days 1 and 15.
